

## The Office of Consultation and Research in Medical Education presents **Skills for Educators Spring 2025 Workshops**

- **The Art and Science of Assessment in Health Professions Education, January 31, 2025**  
This workshop will help you understand the purposes of assessment in learning, select the appropriate assessment type for the levels of learners' knowledge/skills being assessed, and utilize useful strategies for planning/evaluating your assessment practice in health professions education.
- **Fostering Growth with Feedback, February 21, 2025**  
Develop approaches to provide feedback that fosters learner growth and develop strategies to elicit and use feedback for your own growth.
- **Medical Improv, March 7, 2025**  
This interactive workshop will explore how improvisational theatre principles can enhance clinical communication skills.
- **Coaching for Health Professions Education, April 11, 2025**  
Join us to explore different models for coaching in health professions education, why coaching works, and how you can incorporate coaching practices into your teaching.
- **Teaching Clinical Reasoning, May 16, 2025**  
This session will focus on strategies and tools for assessing and teaching learners clinical/diagnostic reasoning.

8:30-11:30 AM

Individuals with disabilities are encouraged to attend all U of IA sponsored events. If you are a person with a disability who requires an accommodation in order to participate in this program, please contact the Office of Outreach & Engagement in advance at 319-335-0684.
